## CHAUTAUQUA PARADE TOMORROW.

Fred N. Tate is Chosen Chief Marshall and will Make Creditable Showing.

High Point's big joyous seven days of Chautauqua is to be ushered in with the style and dignity worthy of such an enterprise, by a creditable parade, which, owing to the nearness of the Glorious Fourth will smack of a national flavor, with the red, white and blue, and patriotism will perch on every banner and flag pole and love of country and home run riot in the multitude of hearts as they step lively to the music of Dixie, America and other cherished songs. The parade will form in front of the Wesley Memorial church at 2 p. m., tomorrow and will proceed in the following order: Chief Marshall, followed by assistant marshalls, the guarantors of Chautauqua in autos, Springfield band, Company M, High Point Rifles, decorated floats, filled with young ladies, two marshalls, young girls in autos, Boy Scouts, ministers, two marshalls, ball teams, fire companies. Chief Marshall Tate is calling for volunteers to ride in the floats and autos and requests that you see him today sure, so as help to make the parade a nice affair.

## Merchants Do the Right Thing.

After today the merchants of the city do away with all kinds of profit-sharing coupons, believing and rightly so, that it is better for both merchant and customer to sell the goods on merit alone which in the end means the very best values obtainable for the money at all times. The prize award has always been looked upon with suspicion by the buyer who has got it into his head that "Jones always pays the freight," anyway

## The A &amp; M College.

In this time of industrial opportunity, it is gratifying to see what a firm grasp the men trained at the Agricultural and Mechanical College are taking on the industrial life of the State. These men not only know how to do things, but they are doing them with credit to themselves and to their college. They are making over old farms and dairies. Many of them are directing cotton mills. On our railways and highways you find them with transit and rod. They are sought by men who need draughtsmen and machinists. Young men who are ambitious and determined to make headway in life are in increasing numbers making their way to this busy institution. The fall announcement in this paper will interest scores of young men.

## Won't Stand for Revolutions.

Washington, June 28.—The United States has determined that so far as it can prevent there shall be no more revolutionary movements in Mexico and that American territory, anyhow, shall not be used as a base for such expeditions. This, it became known today, led to the arrest of Gen. Victoriano Huerta and Gen. Pascual Orozco at El Paso Sunday and forms the ground for strict surveillance now being maintained on Gens. Felix Diaz, Mondragon, Blanquet and Felipe Angeles and other prominent Mexicans living in the United States.

## FIREMEN SUE CITY FOR PROPERTY.

Claim Property Valued at \$500—Interesting Legal Battle to Follow.

Through their attorneys, W. P. Ragan and Dallas Zollicoffer, the West End Fire Department had claim and delivery papers served on City Manager A. Lyon for possession of their property at the West End station, the same being valued at \$500, and consisting of horse and wagon, table, chairs and linoleum. The papers were Friday placed in the hands of Deputy Sheriff Parrish for service, being signed by H. U. Oakes, the secretary of the corporation under the laws of the State of North Carolina. The complainants contend that the property rightfully and lawfully belongs to them, that it was secured thru private subscriptions, voluntary contributions on the part of citizens and firemen and otherwise; that in each and every case said donations were made to the West End Fire Department, a duly chartered corporation, and not to the City of High Point and consequently the said company is entitled to the possession of same.

Roberson, Barnhardt and Smith represent the city. It is quite likely the city's position will be that the Fire Departments are a part and parcel of the city government and as such all the rights of such property is vested in the City of High Point.

On the other hand it is contended that owing to the charter of the West End Fire Company which allows it to acquire and hold property that it will be a hard job for the city to establish its ownership.

It looks like there is to be quite a lot of trouble on hand and brewing from the action of the City Council demanding that a democrat fire chief supplant Chief Horney and the attending circumstances following which caused the resignations of the Northside and West End Fire Companies.

The opinion of Dillon, Thompson and Clay, of New York, is offered as to their validity.

## LOCAL ELKS AGAIN WIN.

Carry Off the Coveted Cup the Second Time and Should Have Had Both.

High Point Lodge No. 1155, B. P. O. Elks, was in Charlotte last Thursday by a large majority and their presence was felt from the time they stepped off of their special train in the Queen City until they left, homeward bound.

There were over one hundred of them at the State meeting and more than three-quarters of a hundred in the parade, and talk about the parade! When our boys passed up the line in full dress, and that means white kid gloves and black walking sticks, too, on every lip was heard the expression, "High Point has 'em skinned alive"—"hurrah for High Point"—"what do ye know about that," and it was a foregone conclusion that the New Betn silver loving cup was dangling at the belt of the best lodge on earth, located in the manufacturing city of the state.

The High Pointers simply electrified the atmospheric surroundings of that well known electrical city until it was unanimously agreed that but for "us or we-uns" there would have been precious little to interest the immense audience and also that the parade would have been a tame affair.

The day was spent very pleasantly and the Charlotte Elks were very hospitable to the large number of "Bills" who carried the Elks' smile and jovial disposition thruout the entire time.

Next year the meeting will be held in Washington—we don't know where the village is located but they say it is down in the sticks near Muskrat station and that you must tack "Little" before the Washington and "N. C." after it so no one will be misled and take the train for the capital of the nation where grape juice has been tabooed and root and not root beer, flow like milk and honey, but at the North Carolina Washington you only get tomato wine and "high-beer."

And do ye know they were so "skered" that the High Point bunch of Elks would for the third time capture the silver cup and thereby become the owners that a combine was formed against us and all of the logical points like Greensboro, Raleigh and Asheville were eliminated for Little Washington so we could not get there without great effort and mental anxiety and lose out on the prize proposition.

But—they don't know the High Point Elks—why, they will go there in swarms "just for spite" and show the populace what grit they carry in their "craws," and, too, when we again win that cup which is reposing for the second generation in our temple, why we will show them that there is nothing little about us and will proceed without much ceremony to put up another cup for the hungry lodges to work for and it will be the "best that are," too.

You know the local Elks are essential to the success of the parade and they don't want to act little, even if they are forced to go to "Little" Washington next June.

## A Solar Phenomenon.

## WATER GOOD, HEALTH FINE

City Physician Hugh W. McCain Gives Out Interesting Interview Regarding Health of City.

Dr. H. W. McCain, city physician, expresses himself as pleased with the health conditions of the city due to pure water, sanitary surroundings, etc. Among other things he says:

"The conditions of the city are indeed excellent in regard to diseases, contagious or otherwise. There is no epidemic of any kind in the community, and the scarcity of all forms of disease is remarkable. Better conditions than those at present could scarcely be hoped for, as the number and severity of diseases is far below the normal when as a general rule the summer months cause a large increase.

"Since the elimination of smallpox from the report on contagious diseases, there are now only four left, measles, whooping, diphtheria and scarlet fever. Two cases of scarlet fever are the only contagious diseases reported, there being none of the others.

"There is no smallpox at present; four cases having been reported during the month, but all are now cured and only three cases of typhoid fever. Of these three cases, only one is in the water district, that is the district supplied with the city water, and this case was contracted without the city.

"Appendicitis and kindred diseases show a slight decrease, but as they are surgical they do not come in my official line of work.

"Probably the most numerous and troublesome diseases at present are the intestinal afflictions, but even these do not assume a serious aspect.

"Taking it all around, the report this month will probably be one of the best yet drawn up."

Dr. McCain also says the pure water test is all that is claimed for it.

## Death of Young Woman.

Miss Gertrude Lea, daughter of Mr. and Mrs. W. H. Lea, died Friday morning at St. Leo's hospital after about four weeks' illness. Typhoid fever caused her death.

The editor and his family accompanied by W. L. Smith and family Sunday motored to the home of Mrs. Nan Bowman, near Brown Summit, where they spent a delightful day with relatives. That part of Guilford, from Greensboro, to Brown Summit and through Rockingham to Reidsville has good roads. In fact it looks like the High Point—Greensboro road is about the worse in the county to be called macadam.
